THE EXTREME SCREEN:

This is where it all begins. Navigate the different areas of PaintBrawl by Clicking on them.

[Practice Session] - Practice your PaintBrawl skills by selecting a level and getting busy. There's no one here to shoot back, so it's a good place to hone your skills, as well as test out new equipment. You can switch between weapons by pressing the number keys.

Press **[Esc]** when you're ready to go back to the Extreme Screen.

[Play a Pick-up Match] - If you don't have time to take your tournament team on the road, there's always plenty of teams around looking for an extra player! Pick-up games won't affect your tournament team, but you still get to play a full game.

Press **[Esc]** at any time to abort the game and return to the Extreme Screen.

[Start/Continue a Season] - Track the progress of your team, as well as plan your next move. See who you'll play against in the next game as you and your team strive for number 1! Click on **[Start a New Season]** to begin a new season, or **[Continue Season]** to continue one underway. Once you've started a season, you can also click on **[Pause Current Season]** to exit season mode (in case the competition is too much for you).

[Purchase Paintball Supplies] (Season mode only) - Outfit your team to take the field. Purchase markers, paint and air, as well as recruit and distribute the members of your team. Once they're ready, head back to the Extreme Screen and select

[Play Next Match] to test your mettle against another Pro- team. Can you take your team all the way to the championship match?

[Play Next Match] (Season mode only) - Click here to start the next game in your line-up for the active season. Press [ESC] during the match to forfeit the game. Don't forget, if you forfeit, there's no prize money for you to spend getting ready for the next match!

[Leave (Quit Game)] - Abandon your hopes of Paintball glory, and return to Windows95.
